unloading of shipment , which had le	ft Forst Zinna on 31 July.
The shirment had arrived in the Jueterbog ar	ea on 27 July.
It had been assumed that artillery units of	the 9th Gds Tank Div conducted
firing practices. The 76-mm field guns and t	he direction of departure
toward Granzin tend to indicate that the uni	t belonged to the 2d Light
Arty Frig (US) and had been stationed in a s	summer camp in the Speck-Granzin 50X1-HUM
area since mid-April.	JOAT-HOW
Comment. On 4 August, elements of the	195th (?) Arty Regt (US) and
the 126th Gds RL En of the 9th Gds Tank Div	vere loaded on trains
and were dispatched to Juete	erbog and/or Luckenwalde. Thus,
the two units can definitely be confirmed in	Neustrelitz until 4 August. 50X1-HUN
did not observe the return on trains	on 8
August. The assumption that the ro	ocket launchers returned as 50X1-HUM
late as 14 August is believed to be not corr	rect; the 10 rocket launchers
probably conducted exercises in the vicinity	y of the post.
Comment. The information tends to ind	dicate that the restricted area 50X1-HUN
on Gerhart Hauptmannstrasse is occupied as a	previously by the 495th (?)
arty Regt (US): the restricted Schlossgarter	n area by the 121st (?) AAA
Regt and the 126th Gds RL Bn: and the Neue 1	Infanterie Kaserne by tank units
of the 9th Gds Tank Div. Movements observed	indicate that the areas west
and northeast of the post were used as train	ning areas of the division.
